OUR STRENGTH COMES FROM WITHIN

ON-PREMISES SOFT MOUNT WASHER-EXTRACTOR

MEETING YOUR NEEDS

Today's on-premises laundries require laundry equipment that is flexible, reliable, and delivers excellent cleanability every time. Speed Queen's soft mount washer-extractor not only meets these requirements, it exceeds expectations.

Easy Loading

A large door opening makes loading and unloading fast and easy. Our heavy-duty stainless steel door features vacuum tight sealing to keep water inside the machine where it belongs.

Heating Options

Speed Queen offers models that heat water via steam or electric heat. You can choose the heating option that best fits your on-premises laundry room.

Microprocessor Control

Speed Queen can bring you the microprocessor controlled laundry system with automatic and programmable operation. The microprocessor captures all of the features you need to make your laundry room operate efficiently. The 18 lb. and 25 lb. washer-extractors offer you 16 factory preset programs. Any of the programs can be erased or edited to customize your on-premises laundry. Step-by-step LED instructions provide for simple operation and ease in programming.

High Speed Extract

A higher G-force during extraction lowers the water retention of the fabrics being processed. A lower water retention also reduces the gas or electricity used during the drying process saving both time and money. Shorter dryer tumbling time also reduces linting and extends linen life. High speed extraction removes a large percentage of moisture from laundry loads and may allow flatwork to be fed through flatwork finisher without prior drying.

Stainless Steel Construction

Durable stainless steel cabinet front, top, and sides as well as inner and outer tubs won't corrode, chip, crack, or pit in normal use, and they're extremely rust resistant. In fact, Speed Queen washer-extractors will maintain their lustrous appearance for years to come.

	SF 18 lb.	SF 25 lb.
Dry Weight Capacity	18 lb. (8 kg)	25 lb. (11.9 kg)
Width	29" (737 mm)	32" (813 mm)
Depth	32.8" (833 mm)	37" (940 mm)
